

Randall Judd was a US Government Employee until February 2, 2006 when he retired and became a consultant specializing in VSIPL and programing methods for portable software development. The conversion from employee to retiree and part time consultant requires additions to the copyright notice.

Note that actual development of the TVCPP VSIPL reference implementation is not something I do as part of a consulting agreement, so I am free to use any license I choose.

The MIT License seems to fit my requirements
