前述通り、ラストオーダーは先着順につき、発注時期によりご要望の数量対応が出来ない事がございますので、早期ご発注検討を願います。

なお、LTB 期限延長は対応不可となっております(ラストオーダー先着順の為)。

参考 : メーカー終息案内

Dear Valued Customer:

Our records indicate that you have previously purchased one or more of the products referenced in Appendix A (see attached).

These products are being discontinued due to component obsolescence.

We are keen to work with all our customers to minimise any disruption this discontinuation may represent and we have a range of options to offer:

1. Migration to replacement product

Appendix A includes the list of products which are being discontinued and *also* lists the replacement products which we would recommend.

We are happy to offer technical support to aid our customers' migration, on request. Please contact your local sales representative if you wish to discuss this further.

2. Last Time Buy opportunity

We are offering all our customers a Last Time Buy opportunity on the board covered by this notice

Last Order Date June 30th, 2023

Last Shipment Date June 30th, 2024

We will continue to accept orders for the above mentioned products through to the last order date. Orders will be filled on a first in first served basis. However, depending on the response to this Discontinuation Notice, we may not be able to fill all requirements.

3. Long Term Support

We are committed to working with our customers to support their programs for as long as possible. Should you have any Long Term Support requirements beyond the Last Order Date for these products our PLM Team will be happy to work with you to evaluate your requirements and formulate a Long Term Support solution that best matches your program requirements.

Typically this includes some or all of the following elements:

- Purchase of customer funded component stock
- Storage of components in a controlled environment
- Quarterly component health checks to identify if further obsolescence occurs which requires further customer funding
- Call-offs of board deliveries over a number of years
- Repairs service beyond the warranty period

Note that any boards covered by such an agreement would be built to order with lead times typically in the order of 20-26 weeks and Minimum Order Quantities of typically 10 boards for each call-off.

Information about the PLM Team and its services can be found at the following web link:

<https://www.abaco.com/technology/obsolescence>

Last time buy orders are non-cancellable, non-returnable and must be scheduled for delivery before the Last Shipment Date.

We hope this range of solutions will meet your needs and that we can continue to work together into the future.

Please contact your local sales representative if you need any further information, or have any questions.
